SUMMARY

Product Designer with 4+ years across SaaS, edtech, fintech, and Web3. I lead UX end-to-end — research, wireframes, usability testing, and delivery — with a strong bias for accessible, user-centered design.

EXPERIENCE

Designer

Dec 2024 — Present

BigBlock Theory • Bengaluru, IN • Web3 Community Management Agency

- Designed branded visual systems and media creatives for 5+ crypto/Web3 clients, ensuring visual consistency across X, Discord, and Telegram communities with **100K+** combined followers.
- Conducted stakeholder interviews and gathered community feedback to inform content strategy and visual direction, aligning design output with client campaign objectives.
- Designed and built an internal dashboard for content scheduling and post-performance tracking — defined the information architecture, user flows, and UI — reducing manual coordination time by **40%**.
- Conceptualised, designed, and shipped Clip Cutter — a full-stack tool that automatically extracts short-form clips from YouTube and Twitter/X podcast content. Owned the entire product lifecycle from UX research and wireframes to production deployment, enabling the team to turn around client content assets significantly faster.
- Established design guidelines and component libraries for each client, enabling faster turnaround and consistent quality across weekly publishing cycles.

Product Designer

Apr 2022 — Dec 2024

ForeignAdmits • Bengaluru, IN • Edtech / Study Abroad Platform

- Led end-to-end UX for the Education Loan product — conducted user interviews, created personas and journey maps for international student segments, and iteratively tested prototypes to reduce application time to under 2 minutes.
- Designed the Accommodation and Forex products from discovery to delivery, using usability testing and heatmap analysis to identify and eliminate friction across critical user flows.
- Collaborated daily with PMs and engineers to ensure technical feasibility, maintain design-to-dev parity, and deliver accessible, WCAG-aligned interfaces across the platform.
- Designed pitch deck that contributed to securing **₹3 Cr** in fundraising; designed marketing collateral that increased partner engagement by **60%**.
- Built and launched **10+** landing pages in Webflow within two weeks, leveraging analytics to A/B test headline variants and CTAs.
- Maintained a component-based design system in Figma, defining UX patterns, accessibility guidelines, and interaction standards used across the full product team.

SKILLS

UX METHODS	User Interviews • Usability Testing • A/B Testing • Persona Creation • User Journey Mapping • Information Architecture • Accessibility (WCAG) • Heatmap Analysis
DESIGN TOOLS	Figma • Adobe XD • Adobe Creative Suite • Jitter
NO-CODE	Framer • Webflow
AI TOOLS	Claude • Claude Code • ChatGPT • Cursor • Midjourney • Imagen • ElevenLabs • Veo
COLLABORATION	Cross-functional teamwork • Design reviews • Stakeholder presentations • Design critique facilitation

EDUCATION

B.E. - Electronics and Communication Engineering

NMAM Institute of Technology, Udupi - CGPA 7.47
